Chimo

25X1

1) Apparently Judge Clark wanted a few people to look into the matter and it is his understanding that there is some sensitive, at least as far as you and Secretary Weinberger are concerned. Judge Clark asked PFIAB to do this and [redacted] has given him the job. Before he gets into it he had hoped to spend a few minutes with you to try and understand where one could possibly do some good and where one has to be careful doing damage.

25X1

2) A few of them on the PFIAB and some consultants would like to listen to the Agency side of this programmatic effort sometime on the 24th or 25th. He wonders whether Evan Hineman could do this. Before calling him he would like to touch base with you.

[redacted] had hoped to see you on 17 August but you will be on vacation-promised we would call him back re above.
